

## Coverage criteria for COVID-19 vaccine counseling

The New York Department of Health (DOH) has issued guidance that Medicaid will provide reimbursement for COVID-19 vaccination counseling to Medicaid members to encourage the administration of the COVID-19 vaccine. The effective date of coverage is for dates of fill on or after December 1, 2021. View the guidance here:

[www.health.ny.gov/health\\_care/medicaid/program/update/2021/no13\\_2021-11.htm#vaccine](http://www.health.ny.gov/health_care/medicaid/program/update/2021/no13_2021-11.htm#vaccine).

Reimbursement for COVID-19 vaccination counseling is limited to unvaccinated individuals who have not received an initial/first dose of the COVID-19 vaccine and do not have an appointment to receive an initial/first dose of the COVID-19 vaccine, but who are eligible to receive the COVID-19 vaccination. A provider may only request reimbursement once per unvaccinated member. Counseling on second and subsequent doses is not billable.

The COVID-19 vaccine counseling session must be documented in the medical or pharmacy record and must include the following:

- Confirming with the patient, or the parent, guardian, or caregiver that the patient is unvaccinated (meaning the patient has not received an initial dose of a COVID-19 vaccine)
- Confirming the patient does not already have an appointment scheduled to receive an initial dose
- Confirming patient consent of the parent, guardian or caregiver (if appropriate) to receive the counseling
- Confirming vaccination status in the New York State Immunization Information System (NYSIIS), whenever possible\*
- Strongly recommending the COVID-19 vaccination (unless medically contraindicated, in which case the counseling session is not billable)
- Counseling the patient, along with their parent, guardian, or caregiver about the safety and effectiveness of COVID-19 vaccines
- Answering any questions that the patient or parent, guardian, or caregiver has regarding COVID-19 vaccination
- Counseling the patient, along with their parent, guardian, or caregiver for a minimum of eight minutes
- Arranging for vaccination or providing information on how the patient can get vaccinated for COVID-19
